How To Use The Vibrations, Frequencies and Energies in the Universe

with **Connie Madon, PhD**

Harvesting 20 years of personal research, Dr. Madon covers these key topics, an Introduction to the Universe, a description of frequencies, vibrations and energies, the language of the Universe, making a connection to the Universe, conditions that may prevent or slow this connection, the key concept of INTENT, framing your request and obtaining feedback.

This past year's research has led to a NEW AND IMPORTANT DISCOVERY. It will be discussed during this year's workshop. This new discovery helps to explain why bad things happen to good people and suggests ways of protecting yourself.

Altered States of Consciousness and Healing Therapies

with Rev. Raul Valverde, PhD

Altered states of consciousness cover transpersonal experiences that involve an expansion of consciousness beyond the limits of time and space. Altered states of consciousness allow us to answer the questions of who we really are and why we are here. Special emphasis will be given to Holotropic therapy.

Holotropic therapy has been practiced by psychologists as a way to produce an altered state of consciousness without drugs, it is a simple yet powerful technique based on combined insights from modern consciousness research, depth psychology and perennial spiritual practices and activates non-ordinary states of consciousness which mobilize the spontaneous healing potential of the psyche.

INTRODUCTION TO COLOR AND SOUND

with Mary Swaine, PhD

Everything in the universe – every cell, every physical being, feeling, thought, inspiration - is energy at particular rates of vibration, made of particular energy pathways or photons/waves of energy. Disease on any level (physical, emotional, mental, soul or spiritual) is incorrect vibratory rate(s) or blocked. Energy pathway(s) within or between the various levels of existence. To heal, we must "retune" the incorrect vibration, and must also work at the level of cause as well as at the levels of the symptoms.

Each color and sound is a specific vibratory rate, containing a myriad of information, and can thus be used to retune/re-educate diseased bodies, emotions and thoughts.

Dr. Swaine will introduce the basic principles of color and sound therapy and practical applications. Specific therapeutic techniques will be discussed and practiced. These will depend upon the needs of participants.

PALMISTRY AND FOOTISTRY

with Mary Swaine, PhD

An introduction to Palmistry and Footistry, techniques of reading the hands and the feet, useful for both psychics and Reflexologists. Reading the hands or feet is a way of quickly getting to know someone's character and fundamental attitudes to life; also their physical, emotional, mental and spiritual strengths and weaknesses, including propensities for physical diseases. This course is both fun and informative. Each participant will have his/her hands and feet read as a part of the course.

Clinical Parapsychology

With Rev. Raul Valverde, PhD

Stress, anxiety and attention deficit disorders have been associated with the lack of synchronization of the brain hemispheres. For decades, binaural sound beats have been used to synchronize the brain hemispheres, and as a tool for psychic development, including telepathy, telekinesis and clairvoyance. Discover how the use of binaural beats and similar techniques can help with the development of telepathy, mediumship and telekinesis, as well as with the reduction of anxiety and stress, and to improve learning ability.

The leumerian Connection

with Rev. Dorothy Nantel

Prior to the sinking of their continent, fully aware of the eventual destiny of their beloved continent, the ancient Lemurians, using their mastery of energy, crystals, sound and vibrations, hollowed out a vast underground city, with the intention. Not only is the Earth hollow, it is inhabited by advanced civilizations. Mount Shasta is the home of the present-day Lemurians, survivors of the sinking continent of Lemuria over 12,000 years ago.

Yes, our Lemurian brothers and sisters are real; they are well and physically alive, living in the subterranean city of Telos, underneath sacred Mt. Shasta.

They are 5th dimensional beings, and as the planet shifts

BETWEEN BODY – MIND – BATTLE AND WHOLISTIC HARMONY PEACE CAN BE ESTABLISHED

with Rev. Karin Reimers, PhD, B.A., PT

The ancient schools of Wisdom Traditions had a curriculum to be followed to further personal development and growth on the path to wisdom. A modern approach is found in today's Spiritualism, teachings which are combining Science and Philosophy with Religion to facilitate individual evolution. This spiritual approach guides you step by step not only out of Body Mind Battle aiming for Peace and Harmony but assists you to focus on a life of success.

The 45th Annual SSF-IIIHS International Conference

August 14–23, 2020 • DoubleTree by Hilton Montréal, 1255 Jeanne-Mance, Montréal, QC

La traduction française sera offerte en partie

20/20 Visions of Tomorrow

Now in its 45th iteration, the SSF-IIIHS International Conference once again brings together pioneers at the frontiers of scientific, religious, and cultural discovery.

Recent consciousness studies suggest new, integrative models for a better understanding of humanity's place in a multidimensional and psychoenergetic universe. We must overcome artificial conceptual barriers that Western civilization has created, between intuition and reason, mind and body, and religion and science, by working together towards the creation of a more humane model for transcultural education and advanced research, in order to reignite our highest aspirations for recognition and agreement on shared human values. New paradigms in "future sciences" may enable us to achieve international peace and understanding in the years ahead.

Experience leading scholars, scientists, spiritual leaders, and gifted visionaries from cultures East & West, as they come together in Montreal for ten days, to share their insights and inspirations. We look forward to welcoming you. Pre-register now for the best value!

Super early bird full-conference special: \$350, if paid by Sept. 30, 2019
